

REPORT.

certified copy of a report of a committee of the Honourable the Privy Council, approved by His Excellency the Governor General in Council, on the 13th of July, 1886.

On a Memorandum dated 30th of June, 1886, from the President of the Council, and in reply to the Acting Minister of the Interior, submitting the expediency of reserving the services of the members of the Militia Force actively engaged in suppressing the half-breed and Indian outbreaks in the Northwest, by giving to each, in addition to the pay and allowances to which they are entitled under the Militia Act, a grant of land upon certain conditions of service, and that the grant should be made in such a form as would be conducive to the settlement of the Public Lands in Canada.

His Excellency therefore recommends that the grant be made, subject to the approval of Parliament, to each member of the enrolled Militia Force actively engaged and bearing arms in the suppression of the Indian and half-breed outbreaks, and serving west of the Rocky Mountains, on the 25th day of March, 1886, or before that date, and who are not commissioned officers, non-commissioned officers, or privates.

The grant, instead of two adjoining sections, comprising an area of 320 acres, should be divided into two sections, each of 160 acres, and undivided Dominion Lands in the Northwest Territory, or in any other part of the Dominion, and the grant should be made in such a form as would be conducive to the settlement of the Public Lands in Canada.

It is recommended that the grant be made to the soldier or his widow, as the case may be, shall perfect the conditions as above provided by continuing to reside upon and cultivate the land within six months from and after the 1st day of August, 1886, and shall thereafter continue to reside upon and cultivate the land for the period, and in accordance with the terms and conditions prescribed by the provisions of the Dominion Lands Act, 1883.

It is further recommended that no substitute be made by a grantee, shall be a person who is not eligible under the provisions of the Dominion Lands Act to obtain entry for a homestead.

It is further recommended that in case a substitute is made by a grantee as hereinafter provided, the land shall be entered in the name of the substitute, and upon compliance with the conditions in that behalf prescribed by the provisions of the Dominion Lands Act, 1883, and that the land shall be entered in the name of the grantee, and upon compliance with the conditions in that behalf prescribed by the provisions of the Dominion Lands Act, 1883.

It is further recommended that all grants of land or scrip, as the case may be, shall be made by the Minister of the Interior, upon a warrant in favor of the person entitled thereto, issued by the Minister of the Interior, and that the grant shall be recorded in the Department of the Interior, in accordance with clause 21 of the Dominion Lands Act, 1883; and it is further recommended that all scrip to be issued under the provisions of the said clause 21, shall be subject in all respects to the provisions of the said clause 21, and also clause 22 of the Dominion Lands Act.

It is further recommended that the conditions made and the patents to be issued under shall not be subject to the provisions and changes exacted in the case of ordinary homestead entries.

The Committee concur in the recommendations as above set forth, and they submit the same for your Excellency's approval.

A WISE PRECAUTION.

During the summer and Fall people are afflicted with various kinds of bowel complaints, which may be promptly remedied or cured by the use of Dr. Williams' Pink Pills for Pale People. Extract of Dr. Williams' Pink Pills for Pale People is required.

Atkinson & Osler will go on to Regina to-day to take part in the trial of the case of Riel.

play as good a game as any of the first-class Canadian teams. The match to-day was most interesting and one of the best exhibitions of the game played in Canada this season. The match resulted in favor of Toronto, the home team, however, having to play for all they were worth to defeat the visitors. Toronto took the first, third, and fourth games in 65, 5 and 8 minutes respectively. St. Paul won the second and fifth games in 4½ and three minutes respectively.

#### GO TO YOUR LOCAL FAIR.

Well-to-do farmers, who can afford the expense, make it a point to go to the local fair and exhibit there. This is commendable, provided such farmers do not care to ignore the county, or other local fair. The local fairs really do more for the improvement of agriculture than do the large state fairs. To make them useful, all the farmers should exhibit at them, and of their best. The good done at these fairs, where the majority of visitors know one another, through their social opportunities—allowing farmers and their wives to meet one another, and talk over matters of mutual interest, is incalculable. By all means go to the local fair, and exhibit the best you have. If some one takes the premium you have, all the better. Find out who has exhibited, and what is exhibited by others, and a teaching by what you have to exhibit. Be ready to listen and talk. Be sure and take the children.

#### THE WORK AT HELL GATE

Nearly ten years have passed since the rock at Hallett's Point (Hell Gate) was removed by the explosion of a mine. This explosion took place in September, 1875, resulting in a marked improvement in the approach to New York harbor. When it became apparent that Hallett's Point was a work of undermining and removing such rocks were practicable ways were taken for the removal of the large rock known as Hell Gate, and in the summer of 1875 the first shaft was sunk. Since then work has been continued with interruptions, and it is now so nearly completed that the great explosion which will remove the rock is expected to take place in October next. There has been cut in the rock 21,670 feet of galleries, and while this amazing has been in progress steam pumps have been constantly at work keeping the excavations free from water. In

the roof of the mines there have been drilled 13,700 holes each three inches in diameter and nine feet long, in which are to be placed the explosive cartridges. During the progress of the work 80,169 cubic yards were cut out and carried through the shaft. The work remaining to be done is to clear up the galleries. A comparatively new explosive called "blackrock" will be chiefly used. It is a compound of dinitro benzole, which is a product of the distillation of coal tar and chloride of potash, both of which are harmless when separate and which can be compounded with nitro glycerine. Of this compound 225,000 pounds will be used, together with 75,000 pounds of No. 1 dynamite. The cartridges will be soldered and will be exploded by electric fulminate primers. When the mine is loaded the galleries will be filled with water and then the explosion will take place. It will be, of course, a much greater one than that of ten years ago, when 49,000 pounds of dynamite were used. It is estimated that the entire cost of the work, including that of removing the debris after the explosion, will be about \$1,000,000.

#### WHEN TO SOW ORCHARD GRASS.

Orchard grass can be sown successfully early in September, if the ground is well prepared. This is done by good plowing, not deeper than four or five inches, and thorough and repeated harrowing, until the soil is very fine and firm. The seed is then sown evenly at the rate of three bushels per acre, and is covered by means of a broad plank attached to a tongue, or a brush harrow, or a roller may be used. The object is to cover the seed evenly, so that it does not fall into the narrow marks and come up in rows, and also to cover it no more deeply than is required. Orchard grass sown in this way, will give a crop of hay the next season, or at least, good fall pasture.

Drunkness, or the Liquor Habit, can be cured by Administering Dr. Haines' Golden Specific.

It can be given it a cup of coffee or tea without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wretch. Thousands of drunkards have been made temperate men who have taken the Golden Specific in their office without their knowledge, and to-day believe and drinking of their own free will. No harmful effects result from its administration. Cures guaranteed. Circulars and testimonials sent free. Address, GOLDEN SPECIFIC CO., 18, Race St., Cincinnati, O.

## TOWN TOPICS

Work on the brewery is going ahead rapidly.

Nearly every man in Brandon went duck shooting on Tuesday.

Messrs. T. M. Daly and A. Jukes went to Minnedosa on a business trip Monday.

Ald. H. R. Cameron has been in Winnipeg for some days working up the race business.

Wm. Anderson, of Crookston, committed suicide in Winnipeg the other day by cutting his throat.

Alex. Edgar, near McGregor station, is in the toils for stabbing a man named Dobbin, of the same place.

Mr. W. Somerville, of Deloraine, and Mr. P. R. Robertson, of Winnipeg, were callers at the Mail Office this week.

Already there is a goodly number of imported horses in the city to take part in the races Friday and Saturday.

The conviction of Mr. Fortier against Mrs. Qwan, for selling liquor without a license, has been quashed by Judge Walker.

It is supposed the Governor General will visit Manitoba very shortly and make a tour through the country.

Louis Riel is seeing visions, in his cell at Regina. He says he has a mission of God to perform, but still he would have given up the good work, and left the country if the Dominion Government had given him \$35,000.

Messrs. Alexander & Kelly are determined to make a good job of the boiler business this time. They are erecting a large brick work addition to the east of the mill and lodge the elevator safely in an cement of brick work.

One Kelly, late of British Columbia, has been arrested in S. incident, by a Winnipeg force, as a supposed murderer of one Baird, in the Rockies last winter. It will be remembered Baird was Montana commercial traveller, and when murdered had \$4,500 with him, which was taken. A reward of \$1,000 has been offered for the murderer.

Dr. Good, of Winnipeg, performed a very delicate surgical operation on Mr. Hunter, who lives north of the river, on Sunday last. Some days since Mr. H. received a bad kicking from a horse, which smashed one eye. Dr. Good removed the diseased organ, which was by this time affecting the sight of the other and substituted a glass one.

Major-General Middleton is offering a prize for competition at the Dominion Rifle meeting of a character novel in this country. Targets are arranged to rise and fall, remaining in view a few seconds only. While the target is in sight the competitors, who are moving, either advancing or retiring, have to halt, judge their distance, sight accordingly and fire. The competition is one of the finest tests of the value of any force as skirmishers that has yet been brought before the notice of the various rifle association.

The Birtle Observer says: A most unfortunate and distressing accident happened on Wednesday last. John Mason, who lives with his parents on the Shoal Lake trail, was taking a gun from a wagon; no doubt the hammer caught on some part of the wagon, causing the gun to be discharged. The shot took off the right hand of the young man, who, notwithstanding the dreadful nature of the occurrence, showed much fortitude and rode into town, which was nine miles distant. He still remains in Birtle in order to receive medical attendance.

Policeman Colson, of the Northwest Mounted Police at Regina, was accidentally shot and killed at Long Lake, north of Regina, a few days ago. He was removing his gun from the bottom of a boat when it went off, the charge entering his body killing him almost instantly. He had been off on a hunting expedition and was returning home. A number of his brother constables went out from Regina to meet him and welcome him home, but had only gone a short distance when they came across his dead body en route to the capital. Colson was a favorite among the police. He was an Englishman by birth and was unmarried.

Work has been commenced on the Brandon bicycle track.

Messrs. Stephen, Peter Mitchell and several other C.P.R. magnates went west on Tuesday.

Through a defective chimney, Chief McMillan came near having a blaze Tuesday night, but fortunately a little effort set everything right.

McGregor station, 50 miles east of Brandon, has a stabbing sensation. It appears that a man named Dobbin went to pick berries upon property belonging to one Edgar, who forbade him to do so. Unheeding, Dobbin crossed the bridge upon which Edgar was standing, when the two men came into a collision. Edgar claimed Dobbin assaulted him, but he (Edgar) drew a knife and plunged it into Dobbin's abdomen, causing the bowels to protrude. He followed this up with another thrust in the neck, and in trying to get in a third stab he drove the knife through the pail which Dobbin carried. Word was immediately sent to Carberry, and Provincial Constable Foster left for McGregor, but before he arrived on the scene Edgar had been arrested by local Constable Fox. Edgar was taken before two justices of the peace who sent him to Portage la Prairie to await the result of Dobbin's injuries, which, it is said, are almost certain to prove fatal.

From the kicking of the Calgary Herald it appears the officials of that burg are not yet satisfied with the disposal of the Gilbert case, but "the proof of the pudding is in the eating." It was in the N.W.T., under Northwest law and by N.W. officials the prisoner was handed over to Chief McMillan, so the pointers have not a leg to stand on. We may say further, Chief McMillan is doing nothing to "blacken" the reputation of the Calgary officials, for it is very questionable if he could color some of them any more even if he tried to do so. We are confident he is dealing in nothing but facts as they come to light, and if the proper treatment of these makes any of the officials or their apologists "squeal," as the boys say, it is the facts and not Chief McMillan that are to blame.

Although Mr. T. Bennett's visit amongst the farmers, to collect samples for the Dominion Exhibition which opens at London, on Tuesday next, has been a very hurried one, he has sent down an interesting lot of samples. The following is a list of the exhibitors with samples shown: Mr. Sifton, wheat, carrots, parsnips, cabbage and turnips; Geo. Pringle, wheat; Wm. Middleton oats and potatoes; John Baker, wheat, oats, cabbage and cabbages; S. Fox, wheat, oats and cabbage; W. Wenman, wheat, oats and barley; W. Peacock, oats; J. T. Arthur, wheat and oats; Lady Cathart, wheat, oats barley and prairie grass; S. Gregg, wheat, oats, barley and Hungarian grass; Bonnett Bros., wheat, oats, barley, potatoes, timothy, prairie grass, (varieties) and native flax; John Kyle, wheat, oats, potatoes and onions; Rev. John Leiper, Mangolds; Geo. Rickson, barley, vetches, wild hops, wild hops and potatoes. Mr. B. sends down one sample of potatoes, the seed of which was in England in April last, was brought to Turtle Mt., sown, grown and the potatoes dug on the 20th of August.

There was a meeting in the fire hall Tuesday night in the interest of the grain sellers, at which various topics were discussed. Much dissatisfaction was expressed at the treatment of farmers by Alexander, Kelly & Co., some of the speakers going so far as to say farmers from within a mile or two of Brandon were forced to go to Rapid City, or Plum Creek for their gristing, the home mill refusing to treat them on equitable grounds. That there will be grumblers, let the home millers do what they may, goes without saying, but nevertheless, it would be well for the city council who bonused this firm liberally, to see what there really is in the complaints. Another subject discussed was the necessity for a grain inspector here, which, under the circumstances, appears to be a necessity. There is no argument in shipping grain to Port Arthur or any other distance before inspection, and have farmers then suffer from rejection. Better know before wheat is shipped at all how it grades, and then farmers have the option of either shipping or taking it home. The meeting adjourned till Tuesday night next, when it is to be held there will be a full turn out, to organize a Board of Trade, and through it secure the grain inspector. The importance of a Board of Trade is valuable on many grounds, as at its meetings railway schemes, wagon road

projections, and all other subjects that effect the interests of the place could receive consideration upon their merits. We sincerely hope the Board will be organized, and that the best heads in the place, regardless of all other considerations, will be placed in office and on the committees.

Mr. Stratton, a scientific horse-shoer, is building a new shop next to Trotter & Trotter's livery stable.

The circus rider of Roseland has cleared out leaving a vacant blacksmith shop behind.

Stewart Fraser sold his behemoth to the advance agent of the circus on Monday. The "animal" will add another attractive feature to the show.

D. R. Wilkie, Esq., Manager of the Imperial Bank, Toronto, and Mr. Hoare, of the Winnipeg agency, have been in this city for some time. They are both taking an extensive drive through the country to see how things in general are promising.

## THE RACES.
